# AMDRO Fire Ant Bait
## Safety Data Sheet
### Date of issue: 05/12/2014  Revision date: 01/13/2020  Supersedes: 03/22/2017  Version: 1.0

## SECTION 1: Identification
### 1.1. Identification
- **Product form**: Mixture
- **Trade name**: AMDRO Fire Ant Bait
- **Synonyms**: EPA Reg. No.: 73342-1

### 1.2. Recommended use and restrictions on use
- **Recommended use**: Insecticide.
- **Restrictions on use**: Keep out of reach of children. Avoid contact with eyes, skin or clothing. Do not use or store near heat or open flame.

### 1.3. Supplier
- **Ambrands**
- 1000 Parkwood Circle, Suite 700
- Atlanta, GA 30339 - United States
- www.amdro.com

### 1.4. Emergency telephone number
- **Emergency number**: 1-800-265-0761
- 1-800-424-9300 - CHEMTREC
- 1-703-527-3887 - CHEMTREC - Outside North America - Collect Calls Accepted

## SECTION 2: Hazard(s) identification
### 2.1. Classification of the substance or mixture
- **GHS US classification**
  - Serious eye damage/eye irritation Category 2B: Causes eye irritation
  - Reproductive toxicity Category 1B: May damage fertility or the unborn child
  - Combustible Dust: May form combustible dust concentrations in air

### 2.2. GHS Label elements, including precautionary statements
- **GHS US labeling**
  - **Hazard pictograms (GHS US)**
  - **Signal word (GHS US)**: Danger
  - **Hazard statements (GHS US)**: May form combustible dust concentrations in air
  - **Precautionary statements (GHS US)**: Obtain special instructions before use.

### 2.3. Other hazards which do not result in classification
- **Other hazards not contributing to the classification**: This pesticide is toxic to fish. Under United States Regulations (29 CFR 1910.1200 - Hazard Communication Standard), this product is considered hazardous.

SECTION 4: First-aid measures

4.1. Description of first aid measures

First-aid measures after inhalation: IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

First-aid measures after skin contact: IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention.

First-aid measures after eye contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice and attention.

First-aid measures after ingestion: IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth. Do NOT induce vomiting unless directed to do so by medical personnel.

4.2. Most important symptoms and effects (acute and delayed)

Symptoms/effects after eye contact: May cause mild eye irritation.

Chronic symptoms: May damage fertility or the unborn child.

4.3. Immediate medical attention and special treatment, if necessary

Treat symptomatically.

SECTION 5: Fire-fighting measures

5.1. Suitable (and unsuitable) extinguishing media

Unsuitable extinguishing media: Avoid heavy hose streams.

5.2. Specific hazards arising from the chemical

Explosion hazard: Dust cloud can be ignited by a spark. Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

Reactivity: This material is friable and can create small dust particles during any handling, processing, and transfer operations. This material can form explosive dust/air suspensions that are ignitable under some conditions.

5.3. Special protective equipment and precautions for fire-fighters

Firefighting instructions: Combustible dust - use low-pressure medium fog streams to avoid dust clouds. Ventilate closed spaces before entering. Eliminate ignition sources.

Protection during firefighting: Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel

6.1.2. For emergency responders

Protective equipment: Do not attempt to take action without suitable protective equipment. For further information refer to section 8: Exposure controls/personal protection.

Emergency procedures: Use grounded electrical/mechanical equipment. Contain spill and monitor for excessive dust accumulation. Turn off electric power to area. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. Evacuate unnecessary personnel.
6.2. Environmental precautions
Avoid release to the environment.

6.3. Methods and material for containment and cleaning up
Methods for cleaning up: Use appropriate PPE. Sweep or scoop spills, dispose of any unusable material in approved landfill. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Non-sparking tools should be used.

SECTION 7: Handling and storage
7.1. Precautions for safe handling
Precautions for safe handling: Ensure good ventilation of the work station. Wear personal protective equipment. Avoid dust formation. Avoid contact with skin, eyes and clothing. Finely divided: keep away from ignition sources/sparks.

Hygiene measures: Do not eat, drink or smoke when using this product. Always wash hands after handling the product.

7.2. Conditions for safe storage, including any incompatibilities
Storage conditions: Store in a well-ventilated place. Do not store near heat or open flame. Keep container closed when not in use. Store in a cool dry place. Store locked up.

Incompatible products: Heat, sparks, open flame.

SECTION 8: Exposure controls/personal protection
8.1. Control parameters

<table>
<thead>
<tr>

<th>ACGIH TWA (mg/m³)</th>
<th>OSHA PEL (TWA) (mg/m³)</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACGIH</td>
<td>3 mg/m³ Respirable particles, 10 mg/m³ Inhalable particles (as Particulates Not Otherwise Classified (PNOC))</td>
<td></td>
</tr>
<tr>
<td>OSHA</td>
<td>5 mg/m³ Respirable fraction, 15 mg/m³ Total dust (as Particulates Not Otherwise Classified (PNOC))</td>
<td></td>
</tr>
</tbody>
</table>

8.2. Appropriate engineering controls
Appropriate engineering controls: Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values. It is recommended that dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen-deficient environment.

Environmental exposure controls: Avoid release to the environment.

8.3. Individual protection measures/Personal protective equipment

Hand protection:
Protective gloves

Eye protection:
Safety glasses

Skin and body protection:
Wear suitable protective clothing

Respiratory protection:
In case of insufficient ventilation, use NIOSH approved respiratory protection.
SECTION 9: Physical and chemical properties

9.2. Other information

SADT : 404°C (759.2°F)

SECTION 10: Stability and reactivity

10.1. Reactivity

This material is friable and can create small dust particles during any handling, processing, and transfer operations. This material can form explosive dust/air suspensions that are ignitable under some conditions.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur. May form combusitble dust concentrations in the air.

10.4. Conditions to avoid

10.5. Incompatible materials

10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

GHS-US Properties | Classification

01/14/2020 EN (English US) 4/6
Potential health effects

Inhalation
Acute: Exposure to dust may cause mild respiratory irritation.

Skin
Acute: Exposure to dust may cause mechanical irritation.

Eye
Acute: May cause minimal irritation.

Ingestion
Acute: Excessive concentrations of nuisance dust in the workplace may cause mechanical irritation to mucous membranes.

Mutagenicity: Hydramethylnon is not a mutagen.

Carcinogenicity: Hydramethylnon is not classified as a carcinogen by IARC or NTP.

Reproductive Effects: Hydramethylnon may cause adverse effects on reproduction. Hydramethylnon does not cause birth defects.

**SECTION 15: Regulatory information**

15.1. US Federal regulations

Hydramethylnon (67485-29-4)
Subject to reporting requirements of United States SARA Section 313
SARA Section 313 - Emission Reporting 1 %

**FIFRA Labelling**

EPA Registration Number 73342-1
This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

**FIFRA Signal word** Caution

**FIFRA Precautionary Statement** KEEP OUT OF REACH OF CHILDREN.

**FIFRA Hazards to Humans and Domestic Animals** Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

**FIFRA First Aid** IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

**FIFRA Environmental Hazards** This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Do not apply when weather conditions favor drift from target areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

15.2. US State regulations

No additional information available

**SECTION 16: Other information**

Date of issue : 12 May 2014
Revision date : 13 January 2020
Supersedes : 22 March 2017

Indication of changes:
Section 15 revised.
